

Property Walkthrough Checklist

Print one per property. Bring your phone — half of this is photos nobody thinks to take.

PROPERTY	DATE	ASKING
_____	_____	_____

HOLD THIS THE ENTIRE TIME

Can two people live here without constantly being in each other's way?

Everything below is how you answer it. If the answer is no, the price doesn't matter.

SIGHTLINES & FLOW

- ☐ Stand in each bedroom doorway and look **out** — what does a resident see?
- ☐ Walk the path from every entrance to every bedroom
- ☐ Walk the path from every bedroom to the nearest bathroom
- ☐ Does anyone cross a common area at 11pm or 6am?

ENTRANCES

- ☐ Is there a second exterior entrance?
- ☐ Does it lead to a rentable space, or through shared space?
- ☐ If not — could one be added? Get a real number first

DOORS & SOUND

- ☐ Locks on bedroom doors, or can they be added?
- ☐ Solid-core or hollow-core doors?
- ☐ Stand still 30 seconds and **listen** — road, HVAC, neighbors
- ☐ Have someone walk upstairs while you stand below

BATHROOMS

- ☐ Count them. Bedroom-to-bath ratio: _____

- ☐ Which bedrooms could have an assigned bath?
- ☐ Any bathroom reachable only through a bedroom?
- ☐ If adding one — where would plumbing come from?

KITCHEN

- ☐ Room for a **second refrigerator** — and an outlet near it?
- ☐ Enough cabinet space to assign per person?
- ☐ Counter space for two people at once?
- ☐ Second kitchen or kitchenette anywhere?
- ☐ Could one be added? Where's the plumbing?

LAUNDRY

- ☐ Where is it?
- ☐ Reachable without crossing a private space?
- ☐ Near a room where someone might be sleeping?

STORAGE

- ☐ Open **every** closet
- ☐ Garage — usable for resident storage?
- ☐ Basement or attic storage?

☐ Enough that belongings won't migrate into shared space?

PARKING

☐ Cars that fit without blocking anyone in: _____

☐ Street parking — available? permitted? full at 2pm?

☐ Enough for one car per potential resident?

CONDITION — LOOK UP, AND AT THE CORNERS

☐ Ceilings — staining, bubbling, mismatched patches

☐ Where basement walls meet the floor

☐ Anything stored on bare concrete, or is it all on pallets?

☐ **Smell** — any damp in the lower level?

☐ Windows — do they open? Condensation between panes?

THE GUT CHECK

Would I be happy living here in two years, with people in it?

☐ **Yes** → run the four numbers

☐ **No** → the price doesn't matter

SYSTEMS — PHOTOGRAPH THESE

☐ Electrical panel — age, room for more circuits?

☐ Water heater — age, size

☐ HVAC unit(s) — age, how many zones

☐ Roof, from the street

☐ Crawlspace access

☐ Anything that looked off

The boring photos nobody takes. Panel · water heater · HVAC · parking · storage · basement corners · the path from entrance to bedroom · each bedroom from its doorway. These are the ones you'll want to look at again when you're deciding.

GO TWICE

☐ **Daytime** — light, layout, condition

☐ **Evening** — noise, street parking, how the block feels at 7pm

Notes

Every door is an opportunity.
